We are currently gathering testimonials from UK consumers who have changed to Guernsey milk recently. Please feel free to write your own testimonial (see here), add your comments to an existing article of relevance, or email us.

In the meantime A2 milk has been available in Australia and New Zealand for the last 3 years or so. Click here to see what the consumers over there have had to say about the milk. Not only does it appear to be helping Autistics but also other conditions such as Asthma, IBS and even severe sinus problems.
